Product Quality Statement

Hi-Tec Oil Traders Pty Ltd is a company committed to providing the highest quality lubricants. This extends to providing not only consistent quality of products from day to day, but also to provide the best performance lubricants that can be made available to our customers and to provide a performance level that meets the particular customer's requirements.

Achieving consistent quality in day to day production is shown by the ISO 9001:2008 certification that Hi-Tec Oil Traders Pty Ltd has held since April 2004. This internationally recognized certification indicates that Hi-Tec Oil Traders Pty Ltd has a quality system that ensures the consistent production of quality products, with procedures and systems in place e.g. in-house laboratory QC testing, to find any problems that may occur and have these problems quickly and completely rectified.

Achieving consistent quality and high standards of performance in manufacturing lubricants is also achieved by having the right personnel and the right suppliers.

The professional management team and the technical staff in charge of quality assurance, formulations and manufacturing at Hi-Tec Oil Traders Pty Ltd each have up to 40 years experience in the oil industry.

Hi-Tec Oil Traders Pty Ltd only sources additives from distributors of internationally recognized additive companies such as Afton Chemicals, Infineum, Lubrizol, Oronite and Rheine Chemie. All of these companies are ISO 9001 certified and have a long history of supplying high quality and performance certified additives to the oil industry.

Hi-Tec Oil Traders Pty Ltd guarantees that its lubricants are manufactured with 100% virgin base stock sourced from Chevron, Mobil and other reputable suppliers, Hi-Tec Oil Traders Pty Ltd does not use recycled oils. Its formulations have been tested in accordance with the appropriate methodologies e.g. American Petroleum Institute (API), American Society of Testing and Materials (ASTM) and the Society of Automotive Engineers (SAE). All products meet or exceed the API, SAE or ACEA specifications quoted on the MSDS and Product Data Sheets.

Hi-Tec Oil Traders Pty Ltd also has a long proven track record in being selected to toll blend lubricants for a growing number of other lubricant companies. They choose Hi-Tec Oil Traders Pty Ltd for its technical and manufacturing ability to ensure that their own lubricants remain at the highest quality standards.
