PRODUCT DATA SHEET

Ultralife EPM 2

PRODUCT DESCRIPTION

Ultralife EPM 2 is a smooth, grey coloured grease with exceptional load carrying capabilities. It is produced from a proprietary blend of multi-complex calcium sulphonate soap thickeners and 460 cSt high purity brightstock mineral-base oil combined with performance enhancing additives and molybdenum disulphide to give supreme resistance to the effects of pressure and temperature on metal-to-metal contact surfaces.

APPLICATIONS

Ultralife EPM 2 is used extensively throughout industrial, mineral extraction, off-highway plant and high intensity production sectors where there is an acute demand to lubricate plain and anti-friction bearings in high load and pressure applications. Due to its operating temperature range and heavy duty rating, it is a highly versatile multi-application grease. It offers superb corrosion protection to metal components and exhibits excellent oxidation stability characteristics. When stored under favourable conditions, it has a shelf life exceeding three years.
